PROFESSIONAL SUMMARY

Technical Support Engineer with 10 months of experience supporting Linux production servers, hosting infrastructure and customer applications. Skilled in L1/L2 troubleshooting, incident handling, RCA, DNS, networking, cPanel/WHM, CloudLinux, Apache, LiteSpeed, PHP-FPM and SSL/TLS. Experienced in resolving technical issues, handling support tickets and escalating complex incidents with technical findings.

TECHNICAL SKILLS

Linux & System Administration: Linux, Ubuntu, Bash, Server Administration, Process Management, CPU/RAM/I/O Troubleshooting, Disk & Inode Management, Server Monitoring

Cloud & Deployment: AWS EC2, Git, GitHub, Nginx, Gunicorn, Cloudflare, Application Deployment, CI/CD Concepts

Web & Hosting Infrastructure: cPanel, WHM, Cloud Linux, LVE, CageFS, Apache, LiteSpeed, PHP-FPM, SSL/TLS, Hosting Troubleshooting

Networking & Email: DNS, A, CNAME, MX, SRV, SPF, DKIM, DMARC, TCP/IP, HTTP/HTTPS, Routing, Exim, SpamAssassin

Programming & Databases: Python, Django, Flask, JavaScript, HTML, CSS, PostgreSQL, MySQL, SQLite, MongoDB

Support & Troubleshooting: Technical Troubleshooting, Incident Management, Ticket Management, Root Cause Analysis, Customer Support, Issue Resolution, Escalation

PROFESSIONAL EXPERIENCE

OVI HOSTING PVT LTD

Technical Support Executive | Feb 2026 – Present

Provide technical support for Linux-based hosting servers and customer websites. Troubleshoot server performance, hosting, DNS, email, SSL, web server, and application issues. Work with cPanel/WHM, CloudLinux, Apache, LiteSpeed, PHP, Exim, SpamAssassin, and DNS configurations. Handle support tickets, chats, customer issues, troubleshooting, RCA, and escalations.

ROMAN TECHNOLOGIES

App Developer | Jun 2024 – Apr 2025

Worked on web and application development projects, including an e-commerce platform with product listings, shopping cart, user authentication, orders, and payment functionality. Troubleshot application issues and supported backend and frontend integration.

DIGITAR APP LLP

Frontend Developer | Dec 2024 – Feb 2025

Developed and maintained web applications using frontend technologies. Troubleshot application issues, fix UI and functionality problems, and work with APIs and backend integrations.

KARUNADU TECHNOLOGIES PVT LTD

AI/ML Engineer | Oct 2023 – Nov 2023

Worked on Python and AI/ML-based applications. Assisted with application troubleshooting, testing, debugging, and technical implementation.

SKILL DISK

Python Developer | Nov 2022 – Dec 2022

Worked with Python development and application troubleshooting. Assisted with debugging, testing, and implementation of application features.

PROJECTS

ORVIQON | AWS EC2 | Linux | Django | Nginx | Gunicorn

Developed and deployed a production web platform on AWS EC2 using Linux, Nginx, Gunicorn, and Django. Configured HTTPS, static files, application deployment, server configuration, and production troubleshooting.

CloudOps Domain & Server Diagnostics

Python | Flask | DNS | HTTP | WHOIS | Cloudflare | Linux

Built a web-based infrastructure diagnostics platform for checking domain, DNS, IP, HTTP, WHOIS, Cloudflare, and server configuration details. Designed automated checks to help identify common hosting and domain issues.

AWS Infrastructure Deployment

AWS | EC2 | Linux | Nginx | Docker | Git | CI/CD

Built and deployed a web application infrastructure using AWS EC2 and Linux. Configured Nginx, application services, Git-based deployment, and production server components. Added Docker and CI/CD workflow knowledge to support DevOps-oriented deployment practices.

EDUCATION

BACHELOR OF ENGINEERING

Computer Science and Engineering

HKBK College of Engineering | 2023 – 2025
CGPA: 7.04

DIPLOMA

Computer Science and Engineering

Government Polytechnic Immadihalli | 2019 – 2022
Percentage: 60%

CERTIFICATIONS

AWS Solutions Architect Professional 2022: General Architecture

AWS Certified Developer Bootcamp: Session 2 Replay

Big Data & Hadoop

Python Projects

NoSQL Databases

Ethical Hacking

Blockchain Basics
